

Based on the Olympic Games 2028, we organize for you a contemporary form of "Olympic games".

The activities will be chosen together and will be cast in a form of competition.

In advance a briefing will be given to the captains of the various teams. The teams can get the name of the specific department, the different countries or regions of your company to which they belongs.

So the involvement and group atmosphere within the company will be extra stimulated.

The captains choose which activity is their speciality, so they can win this test and earn extra points. In addition, the order of the other tests will be given depending from the other teams (best test at the top, least good test at the bottom).

Determine what are the possibilities of your team. Tactics and knowledge of your teams are important assets which you must have to pass a balanced programme.

As the trial progress, the atmosphere within the teams increase... Creating allies inside other teams can also be very helpful!
