

## FORT BAYARD

Team building in the  
Château de Namur

In the magical and mysterious atmosphere of the vaulted cellars of the **Château de Namur**, **Sem'On Business** proposes a breathtaking adventure where contestants have to successfully complete a series of challenges using their brain, skills and team spirit, all this under the **Masters of the Games's** expert eyes.

### What is it all about?

An exciting experience combining action and team strategy.

In the cellars of the Castle, the contestants grouped in teams challenge the Masters of the Games in different trials: the Blacksmith, the 16 Beads, the Propeller and other puzzle and logic games. Then, the teams have to take up some more physical challenges: the Maze Inferno, a 35 meter-long via ferrata, a suspension trail, the Ape's bridge, a zipline, the Evil Pit... There's something for everyone!

Every won trial allows the teams to win time to collect a maximum of gold coins.

Once the teams have completed all the trials, they gather in the Treasure Room where the gold coins challenge can finally start!
